

Renovation Tips Checklist

This checklist is merely an overview. Each renovation is a custom job with its own unique challenges and desired outcomes. Wolf Creek Cabinets has 20 years of experience in kitchen, bath, and office renovations. You can rely on us to help guide your project to a successful outcome.

1. Make a good plan

Get what you want, by knowing what you want.

- Scrapbook your dream space
- Clip and save ideas
- Take pictures
- Take measurements
- Set your budget

2. Fashion and Function

Your new renovation will look great and make your life easier. Write down some of your goals and share them with our designers.

- Set some goals for your renovation
- Browse our website for ideas
- Talk to Wolf Creek Cabinets
- Talk to other trades involved (plumbers, tilers, electricians, etc.)

3. Fine tune the plan

Let the fun begin. This is the part everyone loves!

- Pick colors
- Pick door styles
- Choose countertop
- Choose handles
- Make sure your plan is what you want
- Provide Appliance specs to Wolf Creek
- Make Wolf Creek aware of your flooring choice

4. Place your order

This may seem like the easiest step but take a moment to make sure everything is as you like it. Changes after this point add expense and cause delays.

5. Homework

Completing all these steps will help ensure a successful renovation.

- Remove and disconnect sinks
- Remove and disconnect dishwasher
- Remove existing cabinets
- Remove existing fixtures
- Remove old tile
- Complete any electrical or plumbing changes
- Repair drywall
- Paint
- Clean and prepare workspace for installer
- Have sink templates available
- Have slide in range or cooktop on site
- Cabinets delivered and installed (typically 5-9 working days)
- Install flooring
- Quartz countertop template and installation
- Backsplash installation

Enjoy your newly remodelled space!
